

SET OF 4 CIRCLIP PLIERS Réf.: **0000190001**

Characteristics

Mob offers a complete range of circlip pliers from 8 to 100 mm. Circlips are elastic rings used for mechanical assembly, generally mounted in grooves. // The geometry of the pliers is designed to position the circlips with just one hand. // For pliers with external circlips, the return spring facilitates handling of the rings. // The pliers are chrome-plated and their handles are sheathed for a good grip. To increase their strength, the jaws are induction-hardened. // The diameters of the jaws are precision-engineered to match the standard circlip holes. // This set contains the following 4 pliers, 19-60 mm: 1 inner // 1 inner 90° // 1 outer // 1 outer 90° // Tools for professional use.
