

RIGHT-HAND PASSEFRANC TIN METAL SHEARS 260MM ON CARD Réf.: **0521261001**

Caracteristics

Shaped with a table to allow free movement of the hand. For right- and left-hand cutting, these shears are extremely comfortable to use. Described as the ideal shears, the bichantourneuse and continuous-cut shears (cut along the length of the sheet) enable universal cuts: straight and edge cuts on sheet metal or full sheet, contour cuts, curves to the right or left, depending on the model. Induction-hardened cutting edges. Cutting capacity Zinc mm: 1.5 mm (stainless steel 1mm). Induction-hardened cutting edges for greater resistance to use and durability over time. Cold-insulating PVC handles. Stem and head forged in 1 piece, monobloc. Smooth blade leaves no marks on the zinc, unlike micro-serrated blades.
