

HANDLES FOR ENGINEER'S - SLEDGE - ELECTRICIAN'S - JOINER'S HAMMERS Réf.: **6602000301**

Characteristics

Hickory handle: hardwood of high density, suitable for intensive or frequent use. INSTRUCTIONS FOR USE To re-assemble with a "straight" wood handle: - Take the corresponding replacement handle - Select a corner that enters the eye but does not come out - Grate if necessary so that the handle is at least flush in the eye (it is normal that there is a fit to do because MOB has slightly changed his eyes and sleeves over time) - If the handle protrudes from the eye, resize before putting the corners - Put the corner, with a hammer, until the handle has a good hold in the eye. The corners should not exceed the handle. Note: the fitting made by users is no longer guaranteed by MOB.
