

HALF-ROUND BENT-JAWS PLIERS ON CARD Réf.: 9302201401

Characteristics

NF ISO 5745. Sleeve ergonomics: marked guard for improved grip, bimaterial polypropylene and neoprene for grip. The sleeves are resistant to the products used in industry: hydrocarbons, acetone, chlorotene, etc. Carpal tunnel syndrome is a major MSD. The area is therefore not spatulated, but the length of the sleeve is increased and the carpal tunnel zone is simply avoided by refining the pliers at the tip. **CUTTING** All cutting pliers feature an offset axis for maximum leverage, known as **HIGH LEVERAGE**: the joint axis is raised as close as possible to the cutting edge. Superior steel quality: Chrome Molybdenum, an alloy renowned for its high mechanical qualities, and in particular its toughness. Hardened cutters for longer life. Cutting pliers are designed to cut all types of wire and strip: strip, steel or nylon, Ertalon, Nylatron, copper wire, bronze, hard, medium-hard or even piano wire. **FINISH** Premium range pliers feature a high-end chrome finish. Chrome plating increases surface hardness and protects against corrosion.
